A RUSSO-TURKISH CONVENTION.

England Preparing to Land Indian Troops in Egypt.

RENEWAL OF PEACE HOPES.

Italy Has No Fear of the Future.

ENGLAND'S WARLIKE PREPARATIONS

[BY CABLE TO THE HERALD.]

LONDON, May 6, 1878.

A special despatch from Alexandria to the Standard reports that preparations are making to disembark Indian troops at Port Said and Suez, and measures are being taken to secure the transit of three English iron-clads, which are expected at Port Said on Tuesday.

GREAT EXCITEMENT IN EGYPT.

A special despatch to the Daily News from Alexandria says Admiral Horby, with the iron-clads Minotaur, Defence, Black Prince and Pallas, is expected at Port Said on Tuesday. The situation is creating great excitement in Egypt. It is generally believed that arrangements have been concluded to land Indian troops there.

FOR SUEZ DIRECT.

The Times of India, of Calcutta, states that an expedition will sail for Suez.

A RUSSO-TURKISH UNDERSTANDING.

A Russo-Turkish Convention has been concluded arranging for the return of the Turkish refugees to their homes. Only those will be sent back at present who belong to localities occupied by Russian troops outside of the principality of Bulgaria. Russian troops will accompany the refugees to protect them and restore their property. The expenses will be borne by Turkey. The position of Sadyk Pacha, Chief of the Ministry, is shaken.

FURTHER ABOUT THE CONVENTION.

The Vienna Political Correspondence publishes the following despatch from Bucharest:—"It is understood that Russia has proposed a new military convention by which she will be empowered to construct camps at Ploesti and Ploesti, engaging in return to remove the headquarters and other establishments connected with the troops from Bucharest. Roumania, up to the present time, has refused assent."

A DANGEROUS DELAY.

A special despatch, dated Constantinople, Friday, says Sadyk Pacha has persuaded General Tolden to grant a six days' delay in regard to the evacuation of Schumla and Varna only.

TURKS EVACUATE ARVYN.

The Turks have evacuated Arvyn, in the Pacha of Trebizond. This is considered the commencement of the execution of the treaty of San Stefano.

NOT CONCERNING ENOUGH.

The Times Vienna correspondent says the Turks have not even deemed the offer which the Russians apparently made to retire beyond Tchatalda sufficient compensation for the evacuation of the fortresses. They point to other unfilled treaty stipulations, such as the non-return of the Ottoman prisoners and the constant reinforcement of the Russian army, only sick and wounded being sent home, and allege that part of the Russian Asiatic army has already landed at Burgas. The Turks are unlikely to yield easily in regard to the fortresses.

THE RUSSIAN HEADQUARTERS.

A despatch to the Times from San Stefano says:—"Nothing has been decided as to the transfer of the Russian headquarters from this place, reports to the contrary notwithstanding."

DRAWING BACK.

A portion of the Russians at San Stefano have withdrawn to Hadzidol.

MORE CONFIDENCE.

The Agency Russe, of St. Petersburg, says a much better impression prevails respecting the prospect of the negotiations. It is rumored that the approaching arrival of Count Schouvaloff here on a visit is connected with a friendly exchange of views resulting from the pourparlers between London and St. Petersburg.

THE CHATTER RESUMED.

The Berlin correspondent of the Times states that Russia has sent fresh communications to London and Vienna specifying the concessions she is willing to grant and again expressing her willingness to enter into special negotiations.

LOST LOUPE.

The Times Vienna correspondent says the most direct and the shortest way seems to have been chosen for the resumption of the pourparlers—namely, through Lord Augustus Loftus.

EFFECT OF THE BRITISH REPLY.

The correspondent confirms the report that England's first reply produced a favorable impression at St. Petersburg.

AWAITING ENGLAND'S ANSWER.

It is believed Jan well informed circles that Count Schouvaloff will shortly go to St. Petersburg for a few days. The object of his visit is unknown, but is assumed to be important.

CONCLUSIVE RESOLVE.

Some say he will not come unless he can bring some definite proposals from the British government. It is known here that the negotiations for a Congress continue, but extreme reserve is maintained.

ENGLAND STILL INSISTS.

The Times correspondent at Vienna intimates that England has not abandoned her claim in regard to the submission of the whole treaty, but has at most consented to enter into an exchange of ideas concerning the merits of the treaty while the pourparlers to find a formula for the Congress continue.

WHY DELAY IS ASKED.

The few days delay, anticipated by the Agency Russe on Thursday, in obtaining any news of the renewed negotiations is explained by the supposition that negotiations on the above topics and on the withdrawal from Constantinople were proceeding simultaneously, so that the understanding about one will depend on that arrived at about the other.

GOSSIP FROM CONSTANTINOPLE.

Telegrams from Constantinople state that Monklar, Osman and Mehmet Ali Pacha have gone to San Stefano.

A SPECIAL ENVOY HAS GONE TO BATHON.

A special envoy has gone to Bathon with instructions for Derwish Pacha from the Porte.

PRINCE LABOFF, THE NEW AMBASSADOR.

Prince Laboff, the new Ambassador to the Porte, is expected to leave St. Petersburg on Tuesday. Chakir Pacha will start thither on the 13th inst.

SERVIA MOVING ON.

Servian detachments are advancing gradually towards the Pristina, Mitrovitz and Salonica railway. At Uskup their progress has been impeded by the guerrilla warfare of the Mohammedan Arnavuts.

AUSTRO-HUNGARY IN ACCORD.

It is officially announced at Vienna that the Austrian and Hungarian Ministers have come to an agreement on the Austro-Hungarian compromise.

FURTHER ABOUT THE ARRANGEMENT.

Vienna correspondents confirm the report that an agreement has been reached between

RUSSIAN IN AMERICA.

Why the Cimbrria Has Been Waiting on the Maine Coast.

ARRIVAL OF RUSSIAN AGENTS

American Steamship Men to Co-operate.

THE CIMBRRIA TO DEPART.

[BY TELEGRAPH TO THE HERALD.]

BALTIMORE, May 4, 1878.

The following extremely important information comes from an authority which can scarcely be questioned. Two special agents of the Russian government arrived in this country yesterday, bearing authority from the Emperor to select immediately fast steam vessels suitable for privateering purposes. These agents arrived at New York on the steamship Germanic, from Liverpool, which came in yesterday, and their names appear on the passenger list as A. Grippenberg and H. W. Hunt.

A BROTHER OF THE COUNT.

The former is a brother of the commander of the steamship Cimbrria, now lying on the Maine coast. He is a Finn and is an officer in the Russian navy, said to be of high rank.

AN AMERICAN.

The other gentleman is a resident of Boston. He has been four months in Russia, and comes back to America accredited with powers to assist in examining and selecting steamers to be fitted out as privateers. The two officials were met at the steamer's wharf by a well known American shipbuilder who recently made a quiet tour to Russia, and who is known to serve the government of the Czar by giving the benefit of his knowledge of American ships which may be purchased suitable for the designs of Russia.

THE THREE PHINDS.

The three gentlemen proceeded as unostentatiously as possible to the Everett House, and the shipbuilder registered himself "and two friends."

SEEKING THE RUSSIAN MINISTER.

The Russian Minister was sought, and when it was found that he had returned to Washington the two agents, at eight o'clock, left the hotel to proceed at once to the capital.

MORE COMING.

I am informed that some ten other Russian naval officers are to come to this country, singly and on different steamers, and that with the assistance of the two American gentlemen referred to they are to designate about fifty fast ships to be purchased and fitted out as privateers in the event of war with England.

THE CREWS.

The crews will be drafted partly from the men brought over by the Cimbrria, and will be completed by men enlisted in this country.

WITH FULL POWERS.

I am also informed that these two agents are really the first that have arrived in this country with power to act, and that the others are to follow at once.

IN THE MARKET.

One of the gentlemen, who was in New York yesterday, has a list of people having fast steamers for sale. Among those at the metropolis are John C. Clyde, Mr. Quintard, Charles H. Mallory and the Pacific Mail Steamship Company.

VERY IMPORTANT STATEMENT.

The Cimbrria will leave her present position in a day or more, subject to orders of these agents, whose arrival she has been awaiting. The two officials are now in Washington.

A SECOND VISIT TO THE GERMAN STEAMER.

GOOD HUMOR AMONG THE CREW—IS A BRITISH VESSEL WATCHING?

[BY TELEGRAPH TO THE HERALD.]

SOUTHWEST HARBOR, Me., May 4, 1878.

A rumor was put in circulation here this morning by some one of the mariners who are constantly coming in and going out of this port to the effect that a British man-of-war has been seen quietly cruising up and down the coast for the past two days in close proximity to this harbor, engaged in watching the movements of the Cimbrria. Upon being informed of the fact I immediately sought out the captain of one of the coasting vessels that arrived late last night from Bangor in the hope of being able to ascertain something definite in regard to the matter.

The skipper, with whom I conversed, said that he had been so informed before he started from Bangor on Friday last, but that he had failed to meet with her. Yesterday, about noon, he decried a large steamer sailing northward, about ten miles distant from the shore, but could not discover under what flag she sailed. Further than that he could not say. I made inquiries of several other gentlemen here, prominent officials and others, but could not find foundation or fact for the rum.

AGRN ON BOARD.

At noon, on invitation of Captain Hadenhausen, of the Cimbrria, and of Count Grippenberg, Mr. Clark, Deputy Collector of this port, and your correspondent visited the Cimbrria for the second time, and conversed with the Russian and German officers.

anxious to ascertain the names of the so-called passengers, I requested a passenger list containing the names of the sixty-three Russian officers, but Count Grippenberg informed me in a very polite manner that he was not permitted to give it to any one.

THEY DECIDE TO WAIT.

The Russian passengers refuse to converse in regard to any subject bearing upon their presence or plans in American waters. Judging from present indications the Cimbrria will in all probability remain in this harbor for the next two weeks, as the engineer is busy engaged in having the boilers and furnaces thoroughly renovated and cleaned. Owing to the fact that this is the first coast steamship that has ever entered this harbor large crowds of people have been in town all day, from the surrounding country, arriving in all sorts of vehicles.

SHRINK AND SATISFIED.

Great excitement prevails on shore, while on board the Cimbrria everything is as quiet as can possibly be imagined. Captain Hadenhausen scouts the idea of the Cimbrria having been purchased by the Russian government, and says in refutation of that statement the fact that the Cimbrria has a regular set of passengers and carries the German flag. The only English official here at present appears to be the first sea captain upon the wharf watching the steamer, refuses to register his name when the register book at the hotel is presented, and speaks to no one.

QUEBEC'S DEFENCES.

HEAVY CANNON FOR THE CITADEL LANDED ON SUNDAY—FORTIFYING CRANE LANDED.

QUBEC, May 5, 1878.

Two heavy Fallisier rifled cannon, presented by the inventor, Sir W. Palliser, to the Dominion of Canada, were landed from the steamer to-day, and will be placed in the citadel.

The military authorities contemplate erecting a battery on Crane Island, to command the river approaches there above the Traverses.

LUNATIC IDENTIFIED.

FOUR MEN IN PRISON, N. Y., May 5, 1878.

The insane man in jail here has been identified as John Larry, a former employe of a New York bonded warehouse. He had been missing for a week. His brother had arrived on a steamer, and was taken to the Hudson River State Hospital. He became deranged because he was discharged.

JEWELRY STORE ROBBER.

PROVIDENCE, R. I., May 5, 1878.

Stephen Paine, jeweler, on Westminster street, reports that his show window was robbed some time on Saturday afternoon of diamonds valued at about \$5,000. The mode of the operation is a mystery.

THE MINNEAPOLIS EXPLOSION.

MINNEAPOLIS, May 5, 1878.

The scene of the ruins of the destroyed mills was visited to-day by thousands of persons. Special trains were run from St. Paul, and crowds came in carriages from all the adjacent points. The piles of debris were more moving than the work of searching for it. The only result being the discovery, about nine o'clock A. M., of a body in the canal, not much disfigured and easily identified as that of Patrick J. Judge, a mutilated remains yesterday supposed to be his, consequently, those of some other victim.

IS IT A FENIAN RAID?

Reiteration of the Report of Preparations in Buffalo.

MILITARY PREPARATIONS.

The Whole Story Flatly Denied by the Fenian Leaders.

[BY TELEGRAPH TO THE HERALD.]

BUFFALO, May 5, 1878.

It is certain that an agent of the "Fenian fund" has been in the city within the past few days and has held a conference with the leaders of the Irish Nationalists. Some of the latter were questioned to-day, but while denying the presence of the agent, declined to say anything as to his mission. He is supposed to be still in the city and to be on a trip extending to Chicago.

BUFFALO MILITARY COMPANIES.

No secrecy is made of the intention of the companies being drilled here. They are under the command of Captains Moran, Pinsky and McAndrews, and the majority of them are veteran soldiers of the last war. Captain Moran says there are only two or three men in the whole number who have any ties to keep them from going to the front within six hours. The captains are now in secret communication with the Fenian Headquarters. The men are armed with Springfield muskets, but it is certain that they expect a supply of Remington breechloaders during the present week. Captain Moran declines to say where they are coming from, but it is understood to be either from Philadelphia or New York.

DRILLING EXTENSIVELY.

He says similar organizations of Irishmen are now being drilled all over the country, the design being to have a body of well drilled men who can take the field at a moment's notice and serve as a nucleus for thousands who would gather about the standards when hostilities commenced. The liveliest excitement exists among the members of the companies and the shooting clubs, and hundreds of them have been around the Fenian headquarters all day.

WHO IS CASHING?

Later reports state that Cassidy, the agent from Fenian Headquarters, is at Niagara Falls; but inquiry has developed the fact that no man by that name has registered at the hotel there. The number of disciplined Irishmen in this city ready to take up arms at six hours' notice is estimated at 1,000.

IS IT A FENIAN RAID?—THE TRUSTEES OF THE

IRISH NATIONAL FUND DENY THE STORY AND REBUKE THE RAIDERS—ENGLAND'S REPLY IS NOT IN CANADA.

The constant repetition of the story of a Russo-Irish alliance, with a view to an invasion of Canada, and the fact that it has come from so many different quarters, has caused considerable stir among the Irish population here, though grave doubt is expressed as to the truth of the story. With a view to ascertain the truth in connection with the alleged intention to invade Canada, a dispatch reporter yesterday visited several of the leading Irish nationalists
